PREFACE

Dear reader,

In this book you will learn about Hedgie the hedgehog's adventures while going to the playground. The book is made by 4 Media and Entertainment Management students at NHTV. We decided to focus on children from 3 to 4. Using animals in the book was the first thing we thought of, because children recognize these animals and will get to know the animals better. We also have an interactive map so children can choose which animal they want to read about, because children love to get to choose what they want to do. The moral of this story is that you should accept help of others and do not have to do everything on your own.

We hope everyone will enjoy the book!

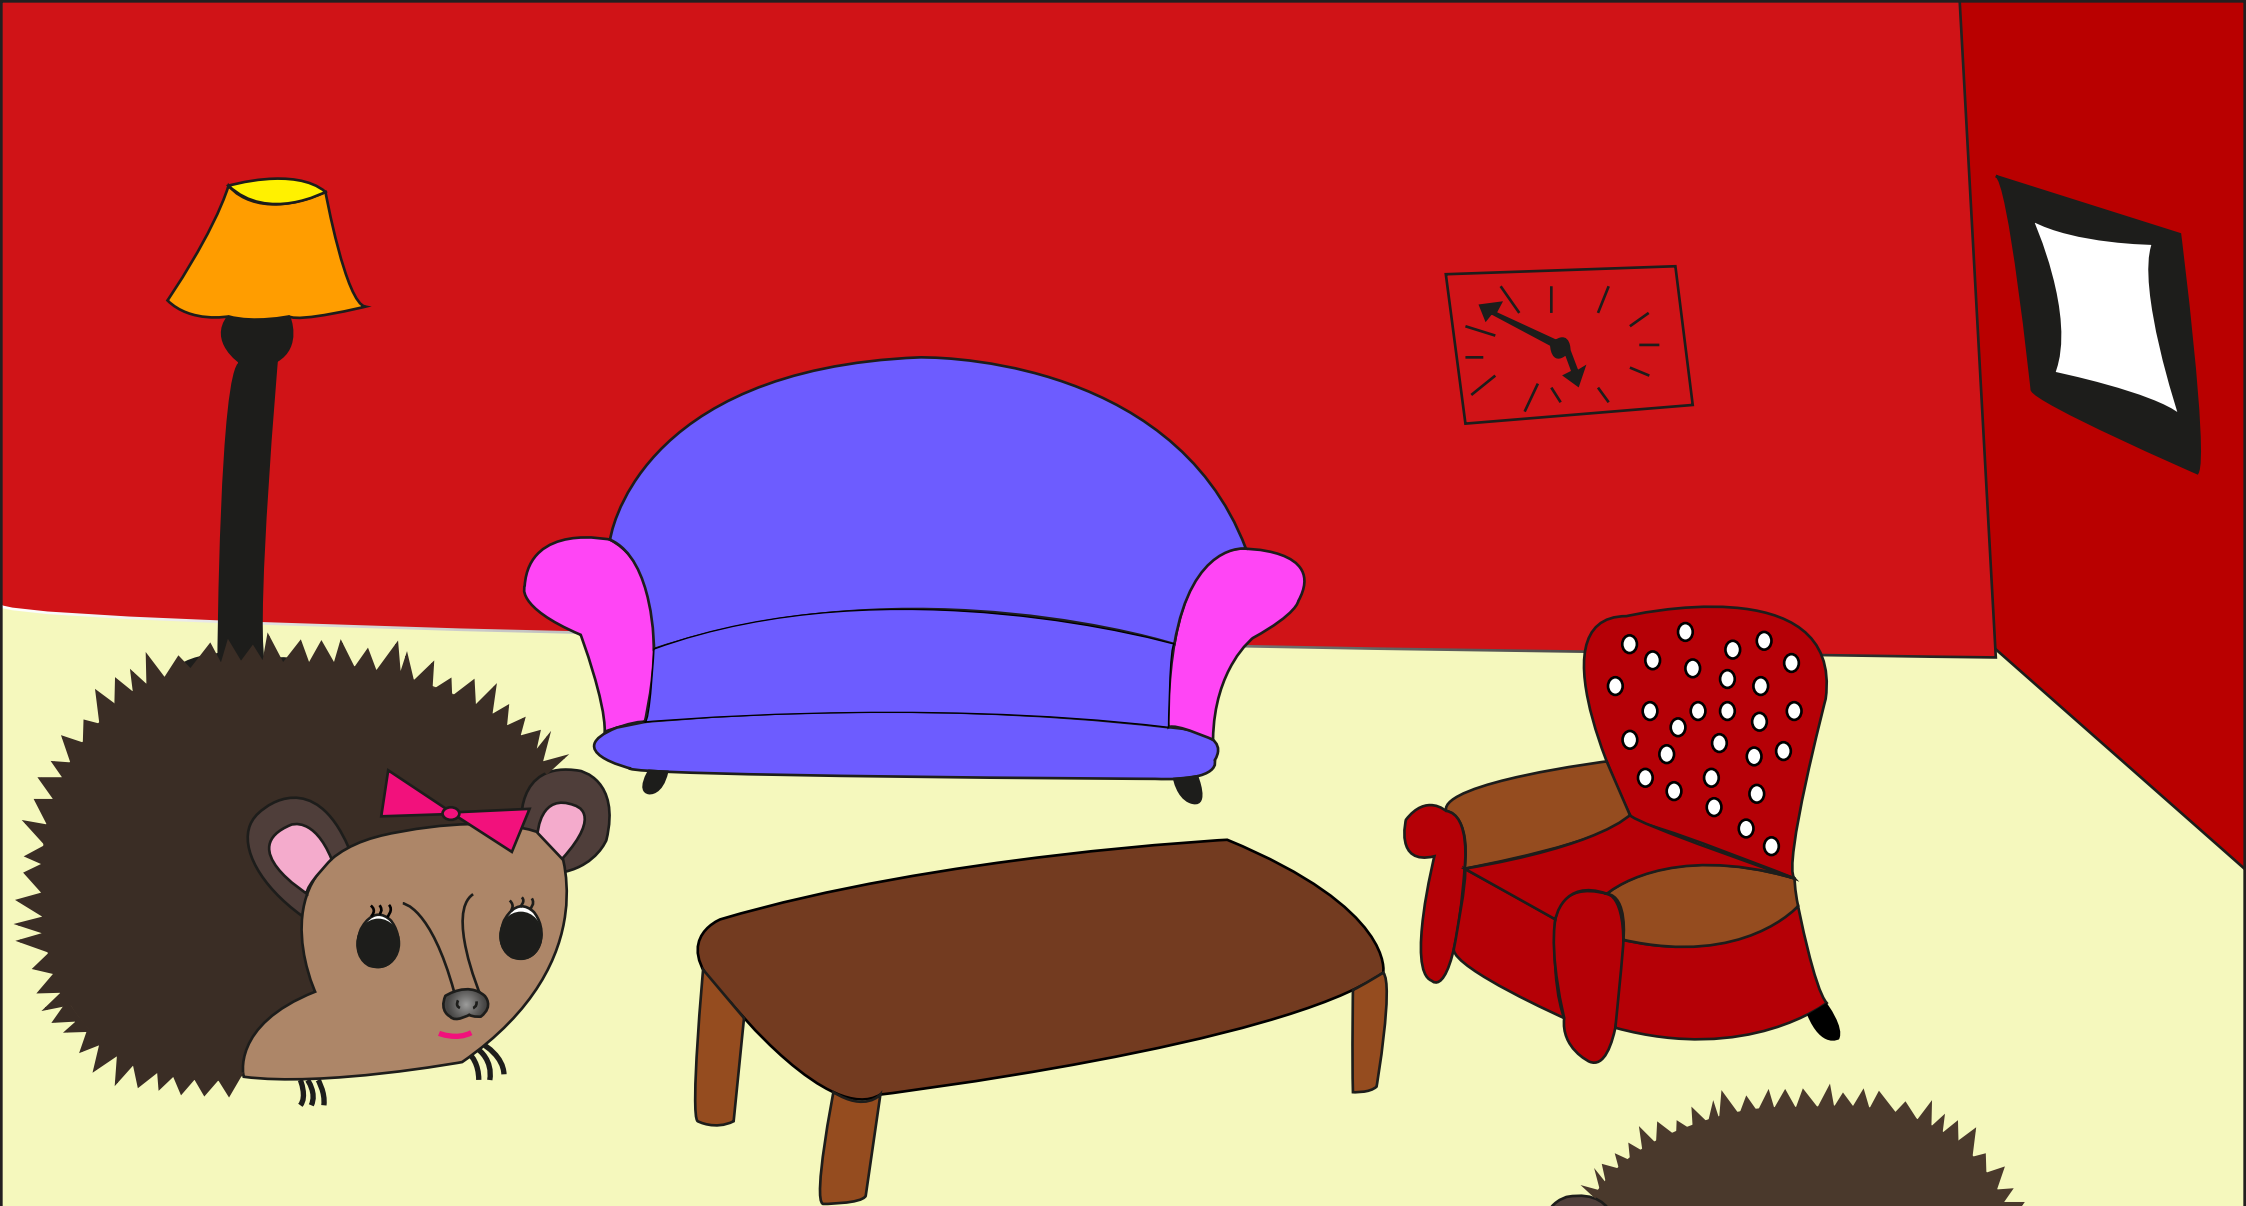

Hello, this is Hedgie the Hedgehog
Hedgie loves to play with his friends
Birdie is Hedgie's best friend
They love to play together

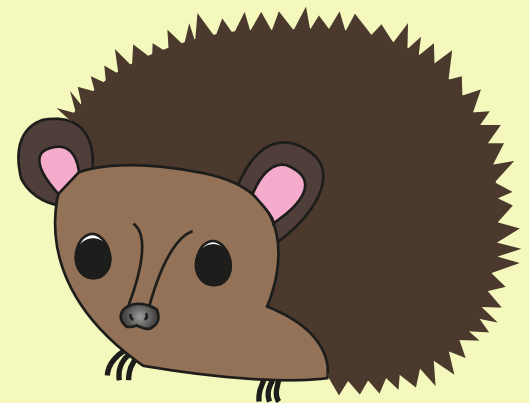

One day, Birdie knocks on Hedgeie's door
Birdie has found a new playground
"Do you want to go to the playground with me?"

Hedgie asks his mom "Can I go to the playground with Birdie?"

Mom says "Alright Hedgie, Have Fun! Make sure you get home before it is dark outside"

Birdie flies away to the playground, and Hedgie follows him by foot
